fot. <https://www.facebook.com/womenonwaves/>

If the anti-abortion law will be tightened, we will consider the continued presence of a floating abortion clinic on the Polish coast - says in an interview with "Newsweek" Dr. Rebecca Gomperts, the founder of the Dutch organization Women on Waves (Women on Waves).

In 2003, a "Newsweek" has revealed plans to bring to the Polish [floating abortion clinic](#). When belonging to the WoW ship "Langenort" docked at the port in Władysławowo, on the crew rained down curses, eggs and tomatoes. League of Polish Families and the Polish Youth protested against plans to allow the Dutch abortion activists Polkom. Despite this, during the voyage there has been cases of drug abortion. A group of women after departure on international waters Poles received prohibited in our abortion pill.

NEWSWEEK: How do you plan to tighten abortion law?

REBECCA Gomperts: Right now the law of Polish women in this area is much sharper than in other European countries (except Ireland and Malta), so it's hard to imagine a further tightening of the rules. Proceeded by the Sejm, the bill clearly constitutes a serious violation of the rights of Polish women. Even the current law has been condemned by the European Court of Human Rights as too draconian.

How will it affect the situation of women after the introduction of the new rules?

Despite the ban in Poland will of course continue to abortion occurred. But will increase inequality and social injustice. Women who have appropriate means, will be in a privileged position. They will leave for example. To the Netherlands or Germany, there to perform the surgery. Others on the Internet, [for example, through our website](#), you are given the pills by which conduct safe abortion. Research of the World Health Organization have shown that these measures can easily be used alone, without the supervision of specialists, and the impact of medical abortion on women's health is similar to the effects of a natural miscarriage. But the total ban and punishment of abortion will end up also the development of the abortion underground.
